

Sent via email to ARRA Subrecipients on October 12, 2009:

ARRA Subrecipients,

The American Recovery and Reinvestment Act of 2009 (ARRA) requires subrecipients to submit project specific data to the FederalReporting.gov website. As a subrecipient of ARRA funds from the State Water Boards, all ARRA reporting will be done through your project manager. There is no need for an ARRA subrecipient to register with or report to FederalReporting.gov. The State Water Board will collect all ARRA data and submit it on behalf of all subrecipients. If you have questions, please contact your project manager at the State Water Resources Control Board.

Thank you.
